Besides promoting your books assiduously online, there are a number of different methods that may show you how to promote extra books.

One is to provide something away without cost along with your ebook, equivalent to a valuable bonus item. Or bundle a number of ebooks underneath one worth, which lowers the value for every e-book in the event that they were sold separately.

An effective approach for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an e book from you, ask for his or her opinion when it comes to price. Do that by creating a sales web page for the brand new e-book, but do not include a value on that page. Instead, add quite a few hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to check out costs by creating a variety of duplicate gross sales pages with completely different costs on each page. Ensure that your sales copy is strictly the same on each web page, and includes your promoting-deal with sentence. Then determine for each page the conversion ratio between visitors to your site and gross sales of your book. This will inform you what your optimum price is.

Ultimately, when you've written a book that solves a downside or presents a brand new technique,

your guide will herald both traffic and profits. So you'll want to write that promoting-handle sentence that sums up what drawback your e book solves and what the advantages of your 111 guide might be to the customers who purchase it. And then watch your market come to you!
