promotional materials, and each time anyone asks you about your ebook.

An efficient method for figuring out a worth is to send out a survey to your current customers. If these customers have already bought an e-book from you, ask for his or her opinion in terms of price. Do that by making a gross sales page for the brand new guide, but do not embody a price on that page. One other technique is to check out prices by making a number of duplicate sales pages with completely different prices on each page. Make sure that your sales copy is strictly the same on each page, and contains your promoting-deal with sentence. Then determine for every web page the conversion ratio between guests to your website and gross sales of your book. It will let you know what your optimum value is.

Finally, when you've written a e-book that solves a problem or presents a new approach, your e book will usher in both site visitors and profits.
