An effective approach for determining a value is to ship out a survey to your current customers. If these clients have already purchased an book from you, ask for his or her opinion when it comes to price. Do this by creating a sales page for the brand new book, but don't include a price on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out prices by creating a number of duplicate sales pages with different costs on each page. Be certain that your gross sales copy is precisely the identical on each web page, and contains your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your web site and sales of your book. It will let you know what your optimum price is.

In the end, if you happen to've written a e-book that solves a problem or presents a brand new technique, your e-book will bring in both traffic and profits.
