Another technique is to test out prices by making a number of duplicate sales pages with different costs on each page. Be certain that your gross sales copy is strictly the similar on every web page, and contains your promoting-handle sentence. Then figure out for every page the conversion ratio between guests to your website and gross sales of your book. This will tell you what your optimum value is.

Finally, in case you've written a guide that solves a downside or presents a new technique, your e-book will herald both traffic and profits.
