Besides selling your books assiduously online, there are several different methods that can help you sell more books.

An efficient method for determining a price is to send out a survey to your current customers. If these clients have already bought an book from you, ask for their opinion when it comes to price. Do this by making a gross sales web page for the brand new guide, but do not embrace a price on that page. As an alternative, add various links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other technique is to check out costs by making a number of duplicate sales pages with different costs on every page. Be certain that your sales copy is strictly the same on every web page, and

contains your selling-deal with sentence. Then determine for each page the conversion ratio between visitors to your website and gross sales of your book. This will let you know what your optimum worth is.

Ultimately, for those who've written a guide that solves a problem or presents a brand new technique, your e book will usher in both visitors and profits. So make sure to write that promoting-handle sentence that sums up what problem your ebook solves and what the advantages of your 675 book will be to the customers who buy it.
