An efficient approach for determining a price is to send out a survey to your present customers. If these prospects have already purchased an ebook from you, ask for his or her opinion in terms of price. Do this by making a gross sales page for the new ebook, but don't embrace a value on that

page. As a substitute, add quite a few links to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

One other strategy is to test out prices by creating a number of duplicate sales pages with totally different prices on each page. Make sure that your gross sales copy is strictly the same on each web page, and includes your selling-handle sentence. Then figure out for every web page the conversion ratio between guests to your site and gross sales of your book. This can let you know what your optimum price is.

In the end, when you've written a guide that solves a problem or presents a new technique, your e book will bring in both visitors and profits.
